Modernization: Helpful Information Regarding Registering for Provider Training on Modernized MMIS

Update to Web Announcement 1714: Registration is open for providers to attend training in January 2019 on using the modernized Medicaid Management Information System (MMIS). The new system will be implemented on February 1, 2019.

When providers connect to the registration website, please be aware that information will be included within the courses, such as dates, times, locations and registration times. This information displays in different steps as the provider moves through the training registration and course enrollment processes. To expedite the course enrollment process, the logistical information is provided below.

Locations	Venue Addresses	Dates	Registration Times	Training Times
