Nevada Medicaid Web Announcement 3076

Attention All Providers:

New Process to Identify Recipients Participating in a Clinical Trial

Update to [Web Announcement 2930](#): Beginning May 16, 2023, providers and their authorized delegates will be able to use the File Exchange function in the Electronic Verification System (EVS) to upload the [Attestation Form on the Appropriateness of the Qualified Clinical Trial \(form FA-110\)](#). Form FA-110 allows providers to identify recipients that are participating in a clinical trial. The FA-110 form only needs to be uploaded once per recipient and does not need to be included with claims.

For more information on how to use File Exchange to upload documents, please refer to [EVS User Manual Chapter 8: File Exchange](#).
