

**August 22, 2023**

**Nevada Medicaid Web Announcement 3148**

## **Attention All Providers: Sign Up for Electronic 1099s**

Nevada Medicaid and Nevada Check Up has introduced the ability for providers to receive electronic 1099s. Beginning August 22, 2023, currently enrolled providers can use the Electronic Verification System's (EVS) Demographic Updates feature to sign up to receive future 1099s electronically. Electronic 1099s will be available for download for the 2023 tax year.

Providers who elect to receive their 1099s electronically can use the Report Download feature in EVS to obtain a copy of their 1099s. If a provider consents to receive their 1099s electronically, they will no longer receive their 1099s by mail.

Refer to EVS User Manual [Chapter 10: Report Download](#) and [Chapter 12: Demographic Updates](#) and the [Online Provider Enrollment User Manual Chapter 2 Initial Enrollment Application](#) for more information and instructions.
