Nevada Medicaid Web Announcement 3419

Attention Provider Type 55 (Day and Residential Habilitation Services):

Update Regarding Specialty 315 for Day Habilitation and Specialty 316 for Residential Habilitation

Update to [Web Announcement 3192](#): Specialty 315 for Day Habilitation and Specialty 316 for Residential Habilitation are now available for enrollment. This provider qualification change will ensure that Day Habilitation and Residential Habilitation services are rendered in different locations per federal requirement. Providers must have a separate National Provider Identifier (NPI) and location for each specialty. Providers who wish to continue their enrollment for Day Habilitation or Residential Habilitation may submit a reenrollment now with an effective date of August 1, 2024. Refer to the [Provider Type 55 Specialty 315](#) and [Provider Type 55 Specialty 316](#) Enrollment Checklists for other enrollment requirements.

Providers who previously submitted a reenrollment application for specialties 315 and/or 316 earlier this year do not have to resubmit a new application. These applications were processed and approved, and providers were enrolled with an effective date of August 1, 2024.

New Billing Guides are posted for the two new specialties on the Billing Information webpage.
