

July 11, 2025 (Updated July 15, 2025)

Nevada Medicaid Web Announcement 3671

Attention Provider Types 20 (Physician, M.D., and Osteopath, D.O.), 24 (Advanced Practice Registered Nurses (APRN)), and 77 (Physician's Assistant (PA)):

Billing Guide Updated

The billing guide for provider types 20 (Physician, M.D., and Osteopath, D.O.), 24 (Advanced Practice Registered Nurses (APRN)), and 77 (Physician's Assistant (PA)) has been updated effective July 11, 2025.

The updates include clarifications to Radiology procedure billing. When submitting a claim for a radiology code with modifier RT (right side) and LT (left side), bill the radiology codes on separate claim lines. Additionally, when billing for only the technical component, use modifier TC (Technical Component). If only the professional component was completed, use modifier 26 (Professional Component).

Additionally, Healthy Kids (ESPD) language has been updated to reflect proposed revisions to [Medicaid Services Manual \(MSM\) Chapter 1500](#) - Healthy Kids Program, that is scheduled for Public Hearing on July 29, 2025.

Please review the updated billing guide on the [Billing Information](#) page.
