Web Announcement 382

## **Reminder to Providers Regarding Paternity Testing**

Blood typing for paternity testing (CPT codes 86910 and 86911) is not a medically necessary service and is not reimbursed by Nevada Medicaid.

Nevada Medicaid reimburses for medically necessary, diagnosis-related, covered laboratory services provided to all eligible recipients. Please review [Medicaid Services Manual \(MSM\) Chapter 800](#), Section 803.1 for the coverage and limitations for laboratory services.
