

Web Announcement 43

Attention Provider Type 20 (Physician, M.D., Osteopath):

Beginning February 7, 2005, the Medicaid Management Information System (MMIS) will adjudicate claims submitted by Provider Type 20 (Physician, M.D., Osteopath) for hospital inpatient (admission) services or outpatient surgical center services which were previously denied for not having prior authorization (PA).

The denials occurred because the PAs for these services were recorded under a different provider type, such as Provider Type 10 (Outpatient Surgery, Hospital Based), 11 (Hospital, Inpatient) or 46 (Ambulatory Surgical Centers).

No action is required on your part. Remittance Advices (RAs) will report the adjudication of these claims.
