Announcement 714

April, May and June 2014 Provider Training Reminder

The HP Enterprise Services (HPES) Provider Services Field Representatives will conduct several workshops for providers in the months of April, May and June.

- **Introduction to Becoming a Nevada Medicaid Provider** is offered for those interested in understanding what the Medicaid Program in Nevada entails and will focus on information, applications, public websites and general information. This course is for persons **not** already enrolled with Nevada Medicaid.
- **Foundations: Provider Program Basics** is designed for providers new to Nevada Medicaid and Nevada Check Up, and explains the tools available to easily find claim or payment status and recipient eligibility. The second half of this workshop is dedicated to reviewing **Prior Authorization Submission** and will focus on how to create and manage prior authorizations, view completed prior authorizations, and find resource and contact information.
- **Claim Form Training** workshops will introduce the Nevada Medicaid paper form submission guidelines and are tailored to the completion of the specific form type used for your provider type. In addition, this workshop will review the **Appeals and Special Batching** processes and will conclude with a step-by-step review of **Allscripts PayerPath** electronic claim submission tailored to the completion of the specific form type used for your provider type.
- **ICD-10 Overview** is a workshop that explains what ICD-10 is, when it will be required and where to find future updates. *This training has been canceled and will be rescheduled. The implementation of the use of ICD-10 codes has been postponed until October of 2015.*
- **Program Integrity** will provide information about the three distinct programs DHCFP has to assist in ensuring the fiscal integrity of the programs it administers.

Notes:

- All courses are non-clinical in nature.
- Sessions that have a morning time and afternoon time are identical; they are not part 1 and part 2.*
